BICYCLE STORAGE REGISTRATION PERMIT

All bicycles must be registered and with a permit attached for identification to be stored in the bike storage room or bike racks in the garage. Storage of bicycles in hallways or other common areas is not allowed.

The annual deadline for re-registration is January 31st. Any bicycle that does not have a current permit decal and registration on file with the Association will be removed and donated. An access key for the bike storage room is available for purchase from the Maintenance office for a cost of \$50.00. Storage in the bike room is at a premium so you must first confirm if space is available from the Parking / Storage Control committee. Completed form should be given to Maintenance to receive decals.

The Association assumes no liability for your registered bicycle. Owners need to properly lock and protect their bike from theft.
