

BICYCLE STORAGE REGISTRATION PERMIT

The Association provides storage areas for all **active** bicyclists. All bicycles must be registered with a permit attached in a visible location on the bicycle for identification. Storage is available in the bike storage room or bike racks in the garage. Storage of bicycles in hallways or other common areas is not allowed.

- Registrations may be submitted at any time – there is no cost.
- Storage in the bike room is at a premium. If you desire space in the bike room, confirm if it is available from the Parking & Storage Committee in advance at palmadelmar5@gmail.com.
- An access key for the bike storage room is available for purchase, when space is available, from the Maintenance office for a cost of \$50.00.
- Completed forms should be given to Property Maintenance Manager to receive permit decal.
- The Association assumes no liability for your registered bicycle. Owners need to properly lock and protect their bike from theft and keep their bicycle in good repair with properly inflated tires.
- Annually the Parking & Storage Committee will inspect both bicycle areas. Any bicycle that does not have a permit decal and registration on file with the Association, has been abandoned as the owner has sold, or is in disrepair will be removed and donated.
- Bicycles that **are not actively being used** should be removed by the owner.
